“ I found it a very well designed course with committed people behind it and an impressive participation of quality speakers from different institutions, organisations, and political or academic bodies. Great presentations from accomplished academics and professionals in their field. It is definitely worth it and gives the opportunity to the participants to have access to different knowledge sources and the opportunity to pose questions to representatives of different policy areas. ”

“ It has been amazing! As a Mexican, I believe that understanding the functioning of the EU is extremely important because of the strong relations between Mexico and the European Union. Definitely the best experience for me was the visit to the European institutions plus the exceptional participation of each spokesperson in every lecture. I find this combination quite accurate since personally it has been very helpful in understanding the workings of the EU policymaking process. Simply put, a creative, interactive and productive summer school. ”
